

MARCA BLANCA KIT-BODYTEMP-BLACKBODY

Precise Body Temperature Measurement System - Remote body temperature measurement - Thermographic Camera: 384x288 Vox | 10mm Lens - Blackbody for automatic calibration and ensuring accuracy - High Accuracy ±0.3°C - Monitoring and management software

- System for remote body temperature measurement
- Dual IP Thermographic Camera
- Thermal resolution 384x288
- Optical Resolution 1920x1080
- 10 mm Lens (Term)
- Accuracy ± 0.3°C (With blackbody)
- Temperature measuring range 20°C ~ 50°C
- Blackbody (Included): Precision calibration system
- Temperature adjustment range 30°C ~ 50°C
- Temperature resolution 0.1°C
- Temperature stability ±(0.1-0.2)°C/30 min
- Monitoring and management software
