MARCA BLANCA MIC03

External microphone - High sensitivity - Internal screw terminal connector - +DC/GND/Audio - Power supply DC6V~12V - Esthetic design

External high-sensitivity microphone for use with any camera.

Aesthetically designed, white, case. Simple to install. Can be installed in video surveillance systems together with cameras that do not have a microphone, connected to video recorders with audio and video. In this way, the recorded signal will count with the video of the camera and with the audio provided by the microphone. High sensitivity, operational range from 5 to 150 m2.

+12V/GND/Audio, connections using internal screw terminals.
