MARCA BLANCA ADAM-6060-B

Data acquisition and control module - 6 digital inputs / 6 relay outputs - Protocols: Modbus/TCP, TCP/IP, UDP, HTTP,... - Ability to create analog control rules - Integrated web server - 1 Ethernet port 10/100 Base-TX

- Data Acquisition and Control (DA&C) Modules
- 6 digital inputs and 6 relay outputs
- LED indicator
- Protocols: Modbus/TCP, TCP/IP, UDP, HTTP, DHCP, MQTT, SNMP
- Web language support: XML, HTML 5, Java Script
- Ability to create analog control rules
- Connection to the cloud: Enables remote monitoring and control as well as updating data with Azure
- Automatic rerouting function to ensure daisy-chained data transmission
- Integrated web server
- Watchdog function for system recovery
- 1 Ethernet port 10/100 Base-TX
