UNI-TREND UT595

Multifunction installation measurement device - LCD display of 9999 accounts - Insulation resistance and continuity measurement - Line and loop impedance measurement - RCD test | RCD ramp test - Phase sequence test

- UNI-T
- Multifunction installation measurement device
- LCD backlit display of 9999 accounts
- Insulation resistance measurement up to 1000M?
- Continuity test with acoustic and optical signal
- Circuit breaker tester
- RCD current and circuit breaker release time measurement
- Impedance loop short-circuits
- Phase rotation indicator
- Frequency measurement
- Impedance measurement
- Insulation resistance tester
- AC voltage measurement
- Automatic shutdown
- Automatic change of ranges
- Indication of phase sequence direction
- Exceeding the measuring range indicator

- Low battery indicator
