

UNI-TREND UTi220K

Handheld Thermographic Dual Camera - Real-time temperature measurement - Thermal resolution 200x150 | Accuracy $\pm 0.5^{\circ}$ C - Thermal sensitivity ?100mK - Monitoring on external monitor through PC

- Handheld Thermographic Dual Camera
- Real-time temperature measurement
- Thermal resolution 200×150
- NETD ?100mK
- Accuracy ±0.5°C
- Temperature measuring range 30°~45°C
- Over-temperature light
- Display 2.8"LCD
- Tripod installation Monitoring in PC Software with alarm events
