UNI-TREND UTi85A

Portable Thermographic Camera - Real-time temperature measurement - Thermal resolution 80x60 | Accuracy $\pm 2^{\circ}\text{C}$ or $\pm 2\%$ - Temperature measurement on faces at 1.5 m - High temperature sound alarm - Monitoring on external monitor through PC

- Portable Thermographic Camera
- Real-time temperature measurement
- Thermal resolution 80x60
- NETD $\approx 150\text{mK}$
- Accuracy $\pm 2^{\circ}\text{C}$ or $\pm 2\%$
- Temperature measuring range $-10^{\circ} \sim 400^{\circ}\text{C}$
- Detection distance 1 ~ 1.5m
- Warning light in case of high temperature
- Display resolution 320x240
- Possibility of installation on tripod - PC software monitoring with alarm events
