MARCA BLANCA DM939FIAB-F4N1

Dome camera Range 1080p PRO - 4 in 1 (HDTVI / HDCVI / AHD / CVBS) - 1/2.9" Sony© 2.19 Mpx Exmor IMX323 - Lens 2.8 mm | Built-in microphone - IR LEDs Range 8 m - OSD remote menu from DVR

Dome camera with infrared, valid for exterior. Technology 4 in 1 (HDTVI / HDCVI / AHD / CVBS) Range 1080p PRO.

Consisting of a 1/2.9" Sony© 2.19 Megapixel Exmor sensor (model IMX323) and DSP (model NVP2441H) which offers a resolution of 1080p at 25 FPS. Fixed lens of 2.8 mm with a diagonal vision field of 94°. It has infrared LEDs that are activated automatically, providing a clear image at 0 Lux (total darkness) at a maximum distance of 8 m. It has automatic IR Cut filter that permits clear, real colour, daytime images.

Due to the DSP it furthermore has an OSD menu in HD formats, which can be accessed remotely from the recorder via the coaxial cable, or in both formats from the connection cable button, which allows you to configure the camera and adjust its most important parameters:

- DWDR, to improve image quality under different lighting conditions
- Sense-Up, keeps the image clear and vivid at low lighting
- 3DNR, digital noise reduction system without loss of focus
- AWB & ATW, automatically adjusts white balance for improved colour tone

- BLC (Back Light Compensation) and HLC (High Light Compensation)
- Defog, reduces the effect of fog, compensating the total contrast
- Privacy masks with 4 zones
- Motion detection (Videosensor)

BNC video connector for HD formats HDTV / HDCVI / AHD / CVBS, switchable via buttons, Audio via integrated microphone.

The housing is made of aluminum and is weatherproof according to protocol IP66, which makes it suitable for both indoor and outdoor. Easy installation in wall or ceiling due to its 360° bracket.
